SUMMARY

BSc (Hons) Computer Science student at Delhi University (2028) building AI products with Python, LLMs and NLP. Shipped two deployed chatbots during a data analyst internship at HiveRift Software. 9x national hackathon finalist and President of the department's Techathon Society. Seeking an AI/ML, data or backend internship.

EXPERIENCE

Data Analyst Intern | HiveRift Software Pvt. Ltd. Apr 2026 – Jul 2026

- Built and deployed a Search Automation Chatbot for the company website, enabling natural-language discovery of products and services.
- Built a Sales Automation Chatbot with a custom knowledge base to handle lead qualification, FAQs and customer follow-ups.
- Scraped, cleaned and processed millions of records from multiple external sources using Scrapy and Pandas.
- Ran EDA on large datasets and presented trends, anomalies and business insights to stakeholders.

Machine Learning Projects | Freelance

- Built supervised and unsupervised models for predictive analytics and business forecasting.
- Engineered features and automated preprocessing, training and evaluation pipelines.

PROJECTS

GenHive – AI Sales Assistant | Python, LLMs, Docker

[GitHub](#) · [Live](#)

- AI chatbot that answers customer queries from a company knowledge base and qualifies leads.
- Python backend with a web frontend, containerised with Docker and deployed live.

Hive Search Bot | TypeScript, Next.js, GitHub Actions

[GitHub](#) · [Live](#)

- Conversational search for the HiveRift website, letting visitors find products and services in plain language.
- Built in Next.js with CI through GitHub Actions; 60+ commits to production.

LEADERSHIP

President, Techathon Society | Dept. of Computer Science, ARSD College

2026 – Present

- Lead the department's technical society, organising hackathons, workshops and coding events for CS students.
- Coordinate the core team across event planning, outreach and collaborations with other societies.

Team Coordinator, Techathon Society | Dept. of Computer Science, ARSD College

2024 – 2025

- Coordinated the society's team and helped run its technical events and hackathons.

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript

AI / ML: Scikit-learn, TensorFlow, LangChain, LLMs, Agentic AI, NLP

Data: Pandas, NumPy, Scrapy, ETL pipelines, EDA, statistical modelling

Tools: FastAPI, Next.js, Docker, Git, GitHub Actions, Power BI, Matplotlib, Seaborn

EDUCATION

BSc (Hons) Computer Science | Atma Ram Sanatan Dharma College, University of Delhi

Expected 2028

CGPA: 8.27 (Year 2) · 7.95 (Year 1)

Class XII (CBSE) | Ryan International School

90.8%

Class X (CBSE) | Ryan International School

93.8%

ACHIEVEMENTS

- 2nd Runner-Up, PAYLOAD 2026 Hackathon
- Grand Finalist in 9 national-level hackathons
- Deployed two production AI chatbots (search and sales automation) at HiveRift Software
